## CAREER OBJECTIVE

Motivated second-year B.Tech student in Artificial Intelligence and Machine Learning with a solid foundation in programming and core ML concepts. Passionate about building intelligent, data-driven solutions and applying AI/ML skills to real-world problems.

## EDUCATION

C.V. Raman Global University, Odisha

B.Tech in Artificial Intelligence & Machine Learning

August 2024–2028

Bhubaneswar, Odisha

## PROJECTS

Online Quiz Platform | Flask, HTML, CSS, JavaScript

April 2026

- Built an interactive quiz system with score tracking and leaderboard functionality.
- Implemented admin panel for managing quizzes and questions.

Calendar and Reminder App | Flask, HTML, CSS, JavaScript, SQLite

April 2026

- Created a calendar system to manage reminders efficiently.
- Integrated SQLite database for storing and updating reminder data.

Email Spam Detection System

February 2026

- Built a TF-IDF + Naive Bayes spam classifier with 96% accuracy and deployed it using Streamlit.

## TECHNICAL SKILLS

- Programming:** C, C++, Python, Java
- Web Technologies:** HTML, CSS, JavaScript, Flask
- Database:** SQL, SQLite
- Libraries/Tools:** NumPy, Pandas, Scikit-learn, Streamlit
- Developer Tools:** Git, GitHub, VS Code, Jupyter Notebook

## RELEVANT COURSEWORK

- Data Structure
- Algorithm Analysis
- Machine Learning
- OOP-Java

## CERTIFICATION

- Software Engineering Job Simulation** — JPMorgan Chase & Co. (Forage) | Dec 2025
- Prompt Design in Vertex AI (Skill Badge)** — Google Cloud | Jan 2026
- Web Development + DSA** — Apna College (Ongoing)
- Machine Learning** — Udemy (Ongoing)
